

CRUSADE CREAMCORE

Crusade Creamcore is a symmetrically coated heavyweight board, made by multi-ply lamination process. The printing surfaces are therefore identical.

Crusade Creamcore is made from 100% virgin fibre. Product offers high rigidity and superior flatness.

Crusade Creamcore has a silk coated surface offering high level of whiteness and smooth surface for superior print results.

Crusade Creamcore contains woodpulp from well managed forests certified in accordance with the rules of the Forest Stewardship Council® (FSC®).

Crusade Creamcore offers an eco-friendly alternative to mineral oil-based panels such as foam boards, foam PVC and other plastic composites for indoor display purposes.

Crusade Creamcore is fully recyclable and manufactured to precise and controlled standards. Preston Board is registered under the ISO 9001:2015 quality assurance scheme and the ISO 14001:2015 environmental standard.
