

Nordica Artisan is an “light coated” SBB board, made by back-to-back lamination. The printing surfaces are therefore identical.

Nordica Artisan can be used in a wide range of premium & luxury packaging applications.

Nordica Artisan is designed for the most demanding print requirements and has a special light coating on both sides to give the optimum balance of looking and feeling like an uncoated but delivering ink lift of a coated board.

Nordica Artisan is suitable for use in direct contact with dry and fatty foodstuffs in accordance with German BfR XXXVI recommendations.

Nordica Artisan is made from 100% virgin fibre from pulps sourced from well managed forests certified in accordance with the rules of the Forest Stewardship Council® (FSC®).

Nordica Artisan is fully recyclable and manufactured to precise and controlled standards. Preston Board is registered under the ISO 9001:2015 quality assurance scheme and the ISO 14001:2015 environmental standard.

PRINTING & CONVERSION

Nordica Artisan is suitable for offset litho • large format digital • silk screen print processes.

Nordica Artisan is recommended for conversion applications involving UV, water-based and conventional varnish
